SUMMARY

Sr. UX Designer and Architect with over 13 years of experience focusing on product growth and operational efficiency. I specialize in identifying "leaks" in user journeys and re-architecting flows to drive measurable ROI, such as scaling marketplace orders by 9x or reducing candidate dropout rates by 70%. I bridge the gap between business goals and technical feasibility.

EXPERIENCE

Principal UX Designer @ Sobrus

Jun 2025 - Now, Rabat

- **Scaled Marketplace Growth:** Increased marketplace orders by 9x year-over-year by simplifying the procurement flow and focusing on features that grew the Average Order Value (AOV).
- **Contextual Discovery:** Conducted weekly on-site pharmacy visits to perform contextual inquiries; identified real-world pain points and validated roadmap subjects directly with owners.
- **Optimized Ordering Flow:** Reduced steps to complete an order and implemented "Saved Offers" and "Abandoned Cart" reminders to help pharmacists finish tasks faster.
- **Inventory Management:** Designed a step-by-step "Inventory Wizard" turning a manual, complex bottleneck into a guided digital process.
- **Design Leadership:** Led weekly reviews to critique and validate sprint designs, ensuring team alignment and best practices.
- **Data-Driven Decisions:** Used Microsoft Clarity and Mixpanel to monitor user behavior and define product roadmap/sprint priorities.
- **Design System Architecture:** Built the "Sun" Design System from scratch using a 3-layer token structure (Primitive, Alias, Component); collaborated with developers to implement tokens on Shaden/React Native Reusables, doubling development speed.

Sr. Product Designer @ Gentis

Jan 2024 – Jun 2025, Casablanca

- **AI Sourcing Automation:** Designed a prompt-driven AI agent that ranks candidates; automated the selection-to-interview pipeline, saving hiring managers up to 11 hours weekly.
- **Funnel Optimization:** Slashed candidate dropout rates from 40% to 12% by re-engineering the scheduling journey, reducing the booking cycle from 3 days to ~15 minutes.
- **AI Vacancy Generator:** Eliminated friction of manual job creation via prompt-based generator; reduced "time-to-post" from 1 hour to ~12 minutes.
- **Wiggli Tokens:** Designed the Credits & Tokens system to manage platform billing and encourage recurring user actions.
- **Unified Communication:** Streamlined messaging tools to centralize recruiter-candidate interactions.
- **User Validation:** Achieved a 7.6/10 adoption score for first-time users by implementing contextual onboarding guides and post-task surveys.

Lead Product Designer @ Freelancer

Sep 2022 – Dec 2024, Remote

- **Web3 Liquidity Architecture (Hadeswap):** Engineered UX for the first automated market maker (AMM) for NFTs on Solana; pioneered liquidity pools.
- **Blockchain Research:** Conducted deep research into Solana and Metaplex Candy Machine protocols to design secure, high-velocity minting flows.
- **Market Share & Growth:** Captured dominant share of NFT market by increasing trading volume, simplifying DeFi mechanics for retail users.
- **Secure Wallet Infrastructure:** Optimized transaction signing for Phantom and other Solana wallets, ensuring security and compatibility.

Lead UX/UI Designer @ 4D

Dec 2019 – Jul 2022, Rabat

- **Data-Driven Logic:** Built the Fnac advanced product comparator by auditing historical data to solve decision-making friction.
- **Medical SaaS & E-commerce:** Designed Probiocal web app; optimized e-commerce for labs, reducing checkout churn by 9.7%.
- **Information Architecture:** Enhanced blood analysis results experience by restructuring IA for easier interpretation by professionals.
- **Gamified Rewards:** Designed mobile experience for Career Card enabling instant employee recognition via QR code scanning.

UX/UI Designer @ IPPON TECHNOLOGY

Feb 2018 – Oct 2019, Marrakech

- **European Judo Union:** Led website redesign; overhauled "Live Competitions" with "Tatamis" multi-stream system.
- **French Foundation of Sport:** Designed private social app for athletes; achieved 70% user activity rate upon launch.
- **CHANEL:** Designed internal educational app to train employees on upcoming drops, based on research revealing customer knowledge gaps.

UX/UI Designer @ 4D

Feb 2014 – Jan 2018, Rabat

- **AT&T (SBC TARS):** Designed modern web interface for conflict-management application used by thousands of US field technicians.
- **Transportation & Logistics:** Designed Italia Rails app, modernizing ticketing for high-volume travelers.
- **Internal Ecosystem:** Improved UX of 4D's internal developer tools (Wakanda) to enhance productivity.

Co-Founder & Full-stack Designer @ Themevan

Mar 2010 – Jun 2014, Remote/China

- **Global Agency:** Co-founded boutique agency delivering WordPress solutions globally.
- **ThemeForest Elite Author:** Scaled agency to thousands of customers by selling premium commercial themes.
- **Full-stack Product Lifecycle:** Managed end-to-end design/development balancing technical architecture with user-centric design.
